

**Subject: Evaluation of conformity to IEC 60335-2-103 (Household and similar electrical appliances - Safety - Part 2-103: Particular requirements for drives for gates, doors and windows) for ALT product family**

The undersigned Nicola Michelin, General Manager of the company Key Automation Srl, having regard to:

- the testing performed by *Intertek Italia S.p.A.* laboratory on a 900ALT424KK barrier sample (ref. Test Report 200016985UDI-PCP)
- the minor manufacturing differences, that can be considered irrelevant to the subject, between the tested sample and the following variants of the same **ALT** product family:

Variant P/N	Short Description	Difference from tested sample
900ALT424K	4m with blinker	Different languages in instruction manual
900ALT424KO	4m with blinker, orange door	Different languages in instruction manual, different door colour
900ALT624K	6m with blinker	Different languages in instruction manual, different body size, different reduction from DC motor to boom
900ALT624KO	6m with blinker, orange door	Different languages in instruction manual, different body size, different reduction from DC motor to boom, different door colour

Declares that the product variants listed above are in conformity with the IEC 60335-2-103 standard referred to in the Declaration of Conformity dated 05/08/14.

General Manager  
Nicola Michelin
